TECHNICAL SPECIFICATIONS

Contract title: Communications Unit laptop for graphics

This document consists of 2 parts:

Part 1 - General Requirements

Part 2 - Detailed Technical Specifications + Technical Offer

Part 1 - GENERAL REQUIREMENTS

1. Background Information

The Communications Unit within the Secretariat require a laptop machine that can accommodate the installation of various Adobe software such as Premiere Pro, After Effects and Illustrator etcetera. The firm is required to supply good quality laptop that meets the specifications listed herein.

2.1 General requirements applying to all of the items

1. Unless otherwise specified, all equipment must be suitable for use with 220V +/-10 %, 50 Hz power supply.
2. The supplier will be responsible for advising of any Health & Safety risks associated with equipment provided and of suitable protective measures.
3. The supplier must take into account the existing legislation in the beneficiary country and especially the regulations in force concerning safety, hygiene, health and occupational medicine.
4. All equipment must be supplied with full technical documentation comprising, at the minimum, operation manual, service manual and spare parts list. This documentation must be supplied, at the time of delivery of the equipment.
5. Equipment which allows upgrading of capacities (except the power capacity) shall be provided in such a way that upgrades can be performed by installing additional capacity without discarding the already installed capacities.

2.2 Installation, commissioning and testing of equipment.

1. If installation, commissioning and testing by the Contractor of selected equipment under each Lot is required, this is indicated per item in the Part 2 (Detailed Technical Specifications + Technical Offer) below.
2. Where installation and putting into operation by the Contractor of selected equipment is required, the Tenderer shall submit with his tender a description of his proposed activities and activity schedule at the location of delivery for putting into operation and testing of the equipment. This description shall be included in the Technical Offer.
3. For the required items, installation and putting into operation shall be conducted by properly trained and authorized personnel.

2.3 After-sales service

The Tenderer shall, with his tender, provide a description of how the after sales service will be provided, detailing any maintenance support and warranty services.

RE: Comparative Bid Analysis for the supply of i7 Laptop for graphics and video editing

Attached are the relevant documents for the supply of a laptop mainly for graphics and video editing.

The preferred supplier for all this is Brokitephy Enterprises, due to the fact that it has the cheapest quote and the laptop has been custom built mainly for graphics and video editing works.

Gino Oti

FE / Gino,

Was there any specific request that was sent to suppliers' all invited to bidding. Please provide justification on the process undertaken.

TECHNICAL SPECIFICATIONS

Contract title: Laptops Supply

This document consists of 2 parts:

Part 1 - General Requirements

Part 2 - Detailed Technical Specifications + Technical Offer

Part 1 - GENERAL REQUIREMENTS

1. Background Information

The Games Organising Committee are recruiting new staffs to their respective team to continue in the preparations for the 2023 Pacific Games. These new recruits will need to be provided a laptop each and so the NHA Secretariat has allocated funding for the purchase of these laptops. All qualified and registered suppliers of laptops and IT equipment are hereby requested to submit their quotations as per the technical specifications described herein.

2.1 General requirements applying to all of the items

1. Unless otherwise specified, all equipment must be suitable for use with 220V +/-10 %, 50 Hz power supply.
2. The supplier will be responsible for advising of any Health & Safety risks associated with equipment provided and of suitable protective measures.
3. The supplier must take into account the existing legislation in the beneficiary country and especially the regulations in force concerning safety, hygiene, health and occupational medicine.
4. All equipment must be supplied with full technical documentation comprising, at the minimum, operation manual, service manual and spare parts list. This documentation must be supplied, at the time of delivery of the equipment.
5. Equipment which allows upgrading of capacities (except the power capacity) shall be provided in such a way that upgrades can be performed by installing additional capacity without discarding the already installed capacities.

2.2 Installation, commissioning and testing of equipment.

1. If installation, commissioning and testing by the Contractor of selected equipment under each Lot is required, this is indicated per item in the Part 2 (Detailed Technical Specifications + Technical Offer) below.

2. Where installation and putting into operation by the Contractor of selected equipment is required, the Tenderer shall submit with his tender a description of his proposed activities and activity schedule at the location of delivery for putting into operation and testing of the equipment. This description shall be included in the Technical Offer.
3. For the required items, installation and putting into operation shall be conducted by properly trained and authorized personnel.
4. ***Due to the immediate need for these laptops, only suppliers who have the number of units required in stock will be considered.***

2.3 After-sales service

The Tenderer shall, with his tender, provide a description of how the after sales service will be provided, detailing any maintenance support and warranty services.

Part 2 – Detailed Technical Specifications +Technical Offer
